As an option, parents may put extra money into their Family Billing Account \$ for extra items; milk or juice, hot pocket, Ramen noodles or the occasional forgotten lunch. Once you are logged into your "**Family Portal**" (formerly known as ParentWeb Account), on the left side column, select "**Family**". Next you will see "**Family Home**", you will see the "**PayNow**" section on the far right side. Select the **PayNow** button. On the next screen you will be able to select the amount of money you want to put into your Family Billing Account \$. (Remember, that a negative amount indicates a credit. This account is separate from your online lunch orders.) You will then be able to track your balance in your Family Billing Account\$.

If you experience problems with your online lunch payments not completing, FACTS (Renweb) suggests that parents use *Google Chrome or Firefox* as their browser, and do not use *Safari*.

Also, you should set your computer to allow "Cookies" from the FACTS (Renweb) website and also to allow "Cross-Site Tracking" in the "Privacy Settings" from the Renweb website. Sometimes the "Ad Blocker" will catch the FACTS Payment token when submitting a payment.

Do not leave the order page / payment page until the transaction has completed, which may take several seconds to complete.

Also try removing your financial information from the payment page, and then re-entering your financial information to re-set the bank or credit card numbers and that may clear up the issues that you are having with your payments not completing.
